General Observations:

The committee suggested that the specification of all items to be purchased should be vendor neutral.

For office use wherever high end computers with Windows OS proposed are to be replaced by low end computers preferably with Ubuntu and in case of intel processors, generation should be 13th or higher.

All purchases are to be made only from CPRCS/GEM/e-tender. Choice may be made depending on the lowest price offered for the given/approved specification.

Recommendations:- Technical committee recommended to create a database of the software and equipment purchased so as to facilitate speedy evaluation of the proposals.
